How Can Care Be Funded?

There are several ways your care may be funded.

Self-Funding

Many residents pay for their own care using savings, investments or the sale of a property.

Local Authority Funding

If you meet the financial eligibility criteria, your Local Authority may contribute towards the cost of your care.

If their contribution does not cover the full fee, a third-party top-up may be required. We will explain this clearly before any agreement is made.

NHS Funding

Some residents may qualify for NHS funding, such as:

- NHS Continuing Healthcare (CHC)
- NHS Funded Nursing Care (FNC)

Eligibility is assessed by the NHS, and we are happy to help you understand the process.

Paying Your Fees

- Fees are paid monthly in advance.
- Payments can be made by Direct Debit or bank transfer.
- Any additional personal expenses will be invoiced separately.
- Fees are reviewed annually, and we will always provide advance written notice of any changes.
